

In this GKD exclusive attachment method, the metal fabric ends terminate within cylindrical shrouds after passing through a defined envelope. This masks the hardware within the cylinder while a bar permanently secures the fabric. In the StealthLok™ Sprung system, tensioning is accomplished with a hidden spring system at the bottom.

METAL FABRICS

Chesapeake, Helix 12, Helix 24, Helix 36, Helix 48, Helix
72

APPLICATIONS

Etched Graphics, Facades, Parking, Solar Control
